### **Tradestar Resources Announces Karnes County Update in Deep Gas Well**

HOT SPRINGS, AR--(MARKET WIRE)--Feb 13, 2007 -- Tradestar Resources Corporation (Other OTC:TSRR.PK - News) announced today that the Janssen Gas Well in Karnes County, Texas is proceeding with sidetrack drilling operations. As of Sunday February 11th, the open-hole drilling began towards a target of 10,450 feet to penetrate the Roeder Sand. This well is located approximately 25 miles from Tradestar's Hysaw-Hobson Oil Field in Karnes County. It is expected to be a deep gas producer from the Roeder Sand. The well is located in an area that is very active in gas and oil production. There are several nearby wells that produce natural gas in excess of over 1 million cubic feet per day Tradestar anticipates completion of stage one of this well to be around February 20.

Tradestar has a 7% stake in the Janssen well, and will be a participating partner with Penasco Petroleum (Austin, Texas) and Bedford Energy (Oklahoma City, OK). Proex Energy Management of Houston, Texas, will be the operator/manager of the well. This Janssen project is a continuation of Tradestar's alliance with Proex and Penasco, to participate together in multiple joint venture projects for oil & gas development in Texas, Oklahoma and Louisiana.

About Tradestar:

Tradestar Resources Corporation is an independent energy company that is engaged in the exploration, development, exploitation and acquisition of on-shore and natural gas properties in conventional producing areas if the United States. Tradestar strives to enhance asset value by expanding oil and natural gas reserves raising production levels and increasing cash flow. Tradestar intends to foster its growth as an independent oil and gas company by investing in only proven producing wells. The company's web site is <http://tradestar-corp.com>.
